

CS3-SSBP

stainless
steel back
plate

The Calsense Stainless Steel Back Plate, model CS3-SSBP, is a convenient way to accommodate an indoor wall-mount installation of CS3000 controllers providing a turnkey solution for installers and contractors.

The CS3-SSBP provides a stainless steel backplate with dimensions 32" by 22" and is pre-assembled at the Calsense factory.

- Assembly includes a keyed On/Off switch, GFI outlet and receptacle
- When specified at the same time, the SSBP assembly includes the correct installation of the Calsense Transient Surge Arrestor, model TP-110
